Drain Treatment Neem

Drain Treatment for Beverage Machines
Drain Treatment Neem is formulated to treat the drain lines and drain tray of beverage dispensing machines. This formula provides a continuous dosing of probiotic bacteria and effective ingredients into the tray and drain to help prevent build-up and control odors.

Features

Preventative maintenance tool – helps control build-up in tray, lines, drain
Cleans and freshens
Helps prevent formation of sugar snakes

Available In

Drain Treatment Neem -4 bags of 100 pucks/bag (1 ¼" x 9/16") Item #Z321C12-00

Directions for Use

Place one Drain Treatment Neem puck in each beverage tower tray or every 10-12 inches in larger condensation trays. Replace when block has dissolved. Dosing frequency is dependent on beverage machine use and will vary from site to site dependent on traffic.
