

QBAR[™] Auto-Retractable Safety Knife

Fully Auto-Retracting Blade Increases Safety!

Cutting

Extend blade and cut. Pressure sensitive blade automatically retracts once blade loses contact with cutting surface.

After Cut

Blade will automatically retract, even with thumb still on button.

Tape Splitting

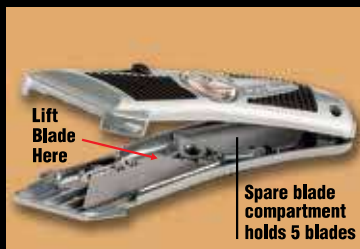

Slice through tape easily with bladeless tape splitter to extend life of blades and increase safety.

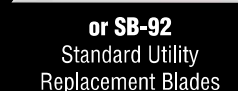

Easy Blade Change:

Rotate quick release blade change wheel counter clockwise to open safety knife.

Remove new blade from spare blade compartment. Insert new blade underneath blade retainer, aligning blade notch with alignment tab. Close knife and rotate wheel clockwise to lock. Dispose of used blade safely.
