Care Instructions

Machine Wash | Water Temp 40°C | Tumble Dry | Low Heat

Machine wash in cold or warm water, not exceeding 105°F (41°C). Line dry is preferred; if tumble drying, use low heat only and do not exceed 105°F (41°C). Use a mild, neutral-pH detergent and minimize or avoid bleach to extend glove life. Adding heavy canvas items to the wash can help remove heavy soil. Use caution when laundering textiles exposed to toxic or corrosive chemicals, as chemical reactions may cause injury.
